iVision Partners with QTS for Custom Data Center Services

iVision extends Infrastructure Solutions through Colocation and Cloud Services

ATLANTA, January 1, 2011 5pm (EST) – iVision, a leading technology solution provider has partnered with QTS – Quality Technology Services – for enhanced data center, colocation and cloud infrastructure services. The partnership has allowed numerous shared medium and enterprise clients to leverage iVision's technology solutions in a flexible, secure and scalable managed environment.

Today's IT leaders are working to find the right balance of internal and external cloud services and data center solutions for their unique environment. The partnership between iVision and QTS delivers the flexibility required for an end-to-end solution, tailored to the company's environment. With the partnership in place, the two technology companies will continue to refine and integrate their services in line with the changing IT landscape.
