

iVision Solution Center

*In today's fast paced economic climate,
IT leaders need clarity and they need it now.*

Introducing The iVision Solution Center.

iVision's \$3.5 million dollar iLab and Solution Center is the only demo and customer facing data center resource inside the perimeter and only one of its kind in Georgia.

Working side by side with iVision's technology experts, clients can plan, test and validate a solution before purchase in order to remove risk and justify the investment.

Solution Center Overview

A data center and learning lab resource located in midtown Atlanta, iVision's Solution Center allows IT Professionals to work side by side with iVision technology experts and Alliance Partners to design, test and validate next generation technology through a hands on, try-before-you-buy approach.

How The Solution Center Empowers Our Clients

- 1) Education on next generation technologies with real life scenarios.
- 2) Plan test and validate the best solution without purchasing technology.
- 3) Financially justify your unique solution for your business needs and goals.
- 4) Position your organization for future extensibility and scale.

Find The Right Solution

Testing and POC

- UCS Planning
- WAN Acceleration
- Converged Solutions
- Virtual Desktop Infrastructure
- Storage Consolidation
- Storage Migration
- Disaster Recovery
- Voice

iVision

*We've transformed how technology does business.
Now let's transform how your business does technology.*

iVision Solution Center

iVision Data Center Lab | iLab

iVision's \$3.5 million dollar lab is located at the front of the Solution Center. The lab features technology from our Alliance Partner Ecosystem including:

- Cisco
- NetApp
- Microsoft
- HP
- Symantec
- VMware
- EMC
- Quantum

Customer University

The University area sits directly off the Lounge. This area is designed for large training sessions and presentations.

- Seating and desk space for 16 - 20.
- Dual 62" displays for presentations.
- Conference phone.

Technology Demo Area

The iVision Technology Demo Area sits next to the University and offers space for hands-on training with direct connectivity to the iLab. This area can be setup in multiple configurations to simulate business needs and also offers work space for customers and vendors.

- Seating and desk space for up to 7.
- PC, terminal, and phone access to iLab technologies.
- Multiple phone handsets.

Video Conference Room

The iVision Video Conference Room sits directly off the Lounge offering a private environment for local and international video conference meetings. Direct access via internet connection is available to any compatible IP conference unit or bridging system/service.

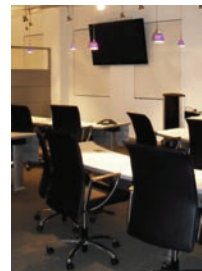

- Seating and desk space for up to 8.
- Tandberg C20 High Definition Video Conference unit.
- Dual 47" display for VC and presentations.
